Innovative Retaining
Wall Products

Welcome to

DynaWall™

DynaWall™ is a branded range of innovative retaining wall products - the DynaLock™ sleeper, the Chamfered sleeper, and the DynaEdge™ sleeper. It has been created to deliver a choice of premium products to enhance outdoor spaces. Combine your creativity and ingenuity with our DynaWall™ range, and create your retaining wall that will be a class above!

**FUTURE
PRODUCTS**

DynaLock:

Foremost in this range is our DynaLock™ tongue-and-groove 'interlocking' sleeper. It is a premium product and has many features and benefits for both trade and DIY users. It will stop the individual sleepers moving out of line with each other, will stop dirt coming out from between the sleepers, and will stop weeds growing between the sleepers. This will ensure that over time, your wall will continue to look a class above.

Chamfered Sleepers:

In addition, we have introduced a range of 'Chamfered' sleepers. These can be used generally as retaining posts and capping and will help set your retaining wall apart.

DynaEdge:

The DynaEdge™ range is for the more discerning homeowner and contractor that wants something 'extra' in their outdoor project. It is distinguished by the 'arrissed' edges and comes from a higher grade of feedstock.

DynaLock™

Sleeper

Product	Lengths	Profile
<p>180x48mm DynaLock CCA H4 sleeper</p> <ul style="list-style-type: none">• Cover of 180mm, width of 195mm• Possible minor size variations• One face rough sawn, one face smooth	<ul style="list-style-type: none">• 2.4m• 3.0m	

Features

- Interlocking 'tongue & groove' profile
- Rough sawn one side, smooth other side
- Large 'arriss' or 'bevel' edge, making it a feature on your wall

Benefits of interlocking tongue and groove

- Keeps the sleepers straight and in line
- Stops dirt/gravel coming through the wall after the natural shrinkage
- Better aesthetics
- Reduced splinter risk, making the boards easier to handle
- No deterioration of the treatment integrity

Applications

- Residential retaining walls, up to 1.0m high
- Outdoor gardens/entertaining areas

Chamfered Sleeper

Product	Lengths	Profile
200x75mm chamfered CCA H4 sleeper <ul style="list-style-type: none"> • Exact size 196x73mm • Possible minor size variations • One face rough sawn, one face smooth 	<ul style="list-style-type: none"> • 2.4m • 3.0m 	
200x50mm chamfered/grooved CCA H4 sleeper <ul style="list-style-type: none"> • Exact size of 196x48mm • Possible minor size variations • One face rough sawn, one face smooth 	<ul style="list-style-type: none"> • 2.4m • 3.0m 	

Features

- Tapered smooth top surface, rough sawn back
- Sleeper size has a grooved back, to allow it to locate the DynaLock sleeper

Benefits of tapered surface

- Allows for water to run off when installed horizontally
- Feature to give a unique look
- Better aesthetics
- Reduced splinter risk, making the boards easier to handle
- No deterioration of the treatment integrity

Applications

- Residential retaining walls, up to 1.0m high
- Outdoor gardens/entertaining areas
- Non-structural feature walls

DynaEdge™

Sleeper

The DynaEdge™ range is for the more discerning home owner and contractor that needs something ‘extra’ in their outdoor creation. It is distinguished by the ‘arrissed’ edges and benefits from a higher-grade selection process.

The benefits of ‘pre-arrissing’

As manufacturers, we understand our role in providing products that are install-ready. The DynaEdge™ range does exactly this, on all the major product groups.

- The arrissed products have significant benefits, productivity, aesthetics, environmental responsibility and safety.
- Improved preservation process in our manufacturing facility
- Improved appearance of the finished project
- Time-saver for tradespeople (who would otherwise machine the edges by hand)
- Less product waste
- Reduced splinter risk, making the boards easier to handle
- No deterioration of the treatment integrity

Product	Lengths	Profile
200x50mm DynaEdge CCA H4 pre-arrissed sleeper	<ul style="list-style-type: none"> • 1.8m • 2.4m • 3.0m • 3.6m • 4.8m • 5.4m • 6.0m 	
200x75mm DynaEdge CCA H4 pre-arrissed sleeper	<ul style="list-style-type: none"> • 1.8m • 2.4m • 3.0m • 3.6m 	
150x50mm DynaEdge CCA H4 pre-arrissed sleeper	<ul style="list-style-type: none"> • 1.8m • 2.4m • 3.0m
